IT RUNS IN OUR BLOOD

120 Years of Experience

Our legacy is rooted in family traditions. Over 120 years ago, our great-great-grandfather, Joseph Holmes, began mastering the art of home building. Today, five generations later, we carry the knowledge and experience that has been passed from father to son. We promise to continue the Holmes family tradition by celebrating the past, pioneering the future, and treating each one of our homeowners like they are a member of our extended family.

Utah's Best Warranty

At Holmes Homes, we stand behind every home we build. Our unmatched home warranty starts with quality materials and goes long after you've moved into your new home. Our 10-year structural warranty and 2-year craftsman warranty cover the structural integrity of your home, materials, and workmanship. Your home will be solidly built with a warranty that you can count on.

Your Land, Your Floor Plan

Our award-winning 6,000 foot design center gives you the opportunity to select the design of your choice and build charm and personality into your new home. You'll receive the benefit of one-on-one consultations with our talented designers to make sure that your home's design and architecture is beautiful and distinctive.

Eco-Friendly Smart Homes

Each home is integrated with state-of-art features, including Google Home, Nest Cam, and Nest Thermostat. These high-tech, automated solutions combine home safety, cost savings, and sustainability to help homeowners feel safe and comfortable in their new home.

BUILD YOUR DREAM HOME ON THE LAND YOU LOVE

At Holmes Homes, we offer you the opportunity to design and build your dream home on the land you love. As important as the lot is, we also believe there's so much more to a home than four walls and a roof. The true meaning of home is comfort, security, and creating life's most cherished memories. That's why we pay special care to every square inch of each home we build. By offering customized floor plans, brand name products, and high-tech features, we're able to deliver the best possible home to enhance your land.

EXPERIENCE THE DIFFERENCE A HOLMES HOME CAN MAKE

Complete your land with an award-winning home. If you're ready to experience the Holmes Homes difference and build a home on your land, we invite you to contact us today at:
